	Total Amount of Estimate, Irish Currency			£.	35,800	—	—
	Total Amount of Estimate, British Currency			£.	33,046	3	1

N^o 1. THIS head of Expenditure has been reduced 600*l.* in consequence of a probability of a reduction in the average Number of Children to be supported through the year; and the Governors having made an advantageous Contract for Beef for the year 1822. The Estimate under this head last year having been 6,000*l.*

N^o 2. This head of Expenditure has been reduced 500*l.* in consequence of the lesser number of Infants likely to be admitted, and a reduction having taken place in the price of several articles of Clothing. The Estimate under this head in the last year having been 3,000*l.*

N^o 3. This head of Expenditure has been reduced 350*l.* in consequence of the decrease in the price of Candles, Soap, Lamp oil, and Bedding. The Estimate under this head in the last year having been 3,500*l.*

N^o 4. This head of Expenditure has been reduced 100*l.* on account of the present good repair of the buildings. The Estimate under this head in the last year having been 200*l.*

N^o 5. The total payment made under this head, to 8th November 1821, amounted to 28,331*l.* 8*s.* 1*d.* but on account of the closing of the Hospital for seven months during the year 1821, there has been a decrease in the number of Infants admitted, in consequence of which the Governors have only estimated for the same sum as the former year, which amounted to 28,550*l.* and they expect this head of Expenditure will be reducing each succeeding year.

N^o 9. The reason of the debt being added to this Estimate is owing to the grant of the Sessions of 1821 being reduced 3,150*l.* 8*s.* 5*d.* below the Estimate which accompanied the Petition to Parliament, and which they were unprepared to meet in any other mode than by obtaining credit from the several persons who supplied the Institution; and the Governors now rely on Parliament enabling them to discharge the amount.

Given under our Corporation Seal at the
Foundling Hospital, Dublin,
15th November 1821.

John Pomeroy,
Chairman.

SURVEY of the River SHANNON; Expenses incurred by Mr. Grantham in 1821.

1821.
April 2.

To my time employed under the direction and instruction of the late John Rennie, Esq. in making a Survey of the River Shannon;—viz.

In travelling from London to Dublin; waiting on Mr. Gregory with a letter of introduction from Mr. Rennie; enabled, by the assistance of Mr. Gregory, to be allowed to make a copy of the Survey of the Shannon, at the office of the Directors General of Inland Navigation; and also in making a copy of the Shannon and adjacent country, with the situation of the Bogs, from the Ordnance Map of Ireland, at the office of the Royal Engineers.

Proceeding to Limerick and viewing the Shannon to Killaloe; making a minute survey of the falls of Killaloe, from the level of Canaan, to the deep water of Lough Derg, with the necessary levels and sections; examining the extremities of Scariff and Youghall Bays, and the intermediate country connected with them, to try the practicability of obtaining a channel through them, but found the intention could not be pursued. Commenced a level and soundings of the Shannon from the shoal that crosses Lough Derg at Derry Island, up to Athlone; making a section of this distance, and transmitting a copy, plan and report to Mr. Rennie; making a survey and sections at Athlone, similar to that at Killaloe; a partial sounding of Lough Ree to Lanesborough; surveyed the fall of Lanesborough, and commenced a level and soundings from thence to Rosskey Bridge; traversed the Shannon to its source at Lough Allen, and returned to Athlone, and made a report, in continuation, to Mr. Rennie, which was transmitted to him; but unfortunately, only a few days before I was informed of the melancholy termination of his estimable life. Viewed part of the River Inny, and the interior of the bog country connected with the objects of my survey; returned down the Shannon, making a distinct survey of Shannon Bridge, Bonaghy and Portanna Bridge; attempted to carry levels up the Suck, the Upper and Lower Bann, but obliged to give up the intention, from the daily increase of the flood waters. Returned down the river to Killaloe, and carried a level and soundings, with several transverse sections, to Castle Connell, but from the increase and violence of the water, obliged to leave them unfinished. Retired into Limerick, where I am employed embodying my plans and sections, and preparing a general report.

(B.)

Sir,

Limerick, 21st March 1822.

SINCE my last communication to you, I have continued in the employment of embodying the plan of the Shannon, with the immense extent of Bog country on its borders, with the intention of shewing at one view the whole extent of country, that I consider may be included in a distinct plan of drainage, under some future Act of the Legislature.

To complete this intention, I have yet to partially sound the two great Lakes, (Lough Derg and Lough Ree) and to level the River Suir, the Upper and Lower Bann, and the Inny. I promise these objects, and to complete the plans and sections, will occupy my time for six or seven months, (if the weather is not unusually stormy.) the expense will be, for myself, clerk, and three or four boatmen, about an hundred pounds per month. My reports and correspondence give you the most ample information of the nature of this survey, and my perfect confidence of the practicability of lowering the Shannon. I should be much concerned that any thing should interfere with its completion as I consider it an object of vital importance to this country to give more space to the crowded and overwhelming population, and to set an example through the kingdom, that its present two millions and a half of acres of unproductive surface may be rendered beneficial.

The object is so popular among the farming and labouring poor, that I shall not have much to apprehend in going into the most remote place, although I am sensible that the present unhappy disturbances will subside by the time that the state of the Shannon will admit of my operations.

I remain, Sir, your very faithful Servant,

John Bennie, Esq.
